

SOJAPROTEIN

QUALITY POLICY

SOJAPROTEIN AD, as one of the leading soy processors in Europe, is devoted to continuous improvement of its business through continuous quality system management applications, environment protection and food and feed safety. SOJAPROTEIN AD applies all ethical principles of business in global supply chain as a member of the global SEDEX platform. At the same time, we understand and comply with all the requirements of KOSHER and HALAL certification.

It is our goal to be recognized and competitive on the global market by processing exclusively NON GMO soybean, along with production of the highest quality, safe and strictly controlled soy based food and feed. We confirm this by production and sales of all products in accordance with the requirements of Donau Soya organization and sustainable product markets.

This goal is achieved through:

- ✎ Innovative and modern production program that complies with the strictest requirements of our buyers. Reliable quality, health safety, prompt delivery, optimal cost and minimum influence on the environment, are all defined as main guidelines of SOJAPROTEIN AD orientation towards our buyers.
- ✎ Respecting commitments towards all participants in the food and feed production chain, as well as other interested parties. Our goal is for all participants in our supply chain to accept the same obligations in terms of quality and safety of products/services that they deliver to us.
- ✎ Complying with the demands of international and domestic standards of quality management, product safety, environment protection and health and safety of employees, with continuous application of legislation and valid standards/normatives.
- ✎ Expert trainings and raising awareness of all employees to be responsible and conscientious to quality and food safety, to environment in which we live and work, resources and energy that we use, and all this in order for them to be responsible and knowing in treatment of product quality and safety, work environment, and presenting SOJAPROTEIN AD as socially responsible company.
- ✎ Continual reduction of negative impact of our processes on the environment, minimizing waste generation and emissions into the air, water and soil.

Our mission and vision is being accomplished in a business environment based on cooperation, trust, encouragement and rewarding of success, while having in mind the best interest of all employees, business partners, shareholders and the community in general.

We are the TEAM behind the name of SOJAPROTEIN.

Bečej, 31.10.2016.
