

SOJAPROTEIN

ENVIRONMENTAL POLICY

Top management of SOJAPROTEIN DOO Bečej is devoted to continuously improve Environmental Management System in accordance with standard ISO 14001:2015 requirements.

Our Policy and objectives are:

-  The identification of all environmental aspects and monitoring of important aspects in order to prevent pollution.
-  Determining the risks and opportunities, related to significant environmental aspects, compliance obligations, the external and internal issues, needs and expectations of interested parties and emergency situations, as well as planning and taking measures in handling them, including the evaluation of effectiveness of such measures.
-  Defining specific goals for the elimination or reducing emissions of harmful substances into the environment, the use of harmful substances and reducing the generation of hazardous waste.
-  Striving that our production and other activities are carried out in accordance with relevant laws, regulations and other requirements in the field of environmental protection.
-  Improving the environment management system through the implementation of its own procedures.
-  Training and encouraging employees to act preventively and constantly improve their attitude towards the environment in which they live and work.
-  The use of alternative forms of energy in order to preserve and save natural resources and energy, while reducing emissions of greenhouse gases.
-  To consider and respect the opinions and suggestions of all stakeholders.
-  Informing business partners, local communities of Municipality Bečej and other stakeholders about our commitment to the protection and preservation of the environment.

Bečej, November 2020.
